COM 1000

– quality and functionality at all times

With its stringently simple design, COM 1000 is the essence of a timeless carpet with an emphasis on exquisite quality and exceptional functionality. The classic expression sparks associations to cobblestone paving, a classic architectural element in the urban space.

The flat-woven carpet is the obvious first choice in settings with extraordinary cleaning requirements along with high standards for quality and comfort.

COM 1000 is woven from dyed-in-the-wool yarn, which ensures that the carpet will stay beautiful in settings that are subject to especially demanding cleaning procedures.

Available as broadloom, square carpet tiles, ZigZag-Tiles® or LockTiles® – our patented concept that allows for a perfect installation with minimally visible joints and a homogeneous expression.

Available from our warehouse in 10 timeless colours. Felt backing from +200 m2.
